## BOOK SYNOPSIS

The second edition of this outstanding reference provides a solid foundation for the study of green building and LEED (Leadership in Energy and Environmental Design). It explains many of the important tenets of green building while providing strategies for implementation and specific case studies designed to broaden your knowledge of green building. Green Building and LEED Core Concepts is an excellent resource in preparing for the Green Building Certification Institutes (GBCI) LEED Green Associate exam. When paired with the USGBC LEED Green Associate Study Guide it provides a powerful combination for exam preparation. A money-saving, value package of these two outstanding publications is also available!
